

**Djamil AÏSSANI**  
(*Biographical note*)

**Director of LaMOS (Research Unit)**  
(<http://www.lamos.org>)

**President of Gehimab (Learned society)**  
(<http://www.gehimab.org>)

**Research Director, C.N.R.P.A.H. Algiers**  
(<http://www.cnrpah.org>)

**Djamil Aïssani**, Mathematician and Algerian Man of Culture. Born on July 24th, 1956 in Biarritz (Basque Country, France). Son of Mustapha Aïssani, Director of the Schools of Outdoor, and Mrs.Aïssani, born Aïnouche Drifa. Married, four children.

### Plan

- Studies
- Career
- Organizational Tasks
- The Research Unit **LaMOS**
- **LaMOS** : a 32 years action
- The **Gehimab Learned Society**
- Culturel field
- Sport field
- Scientific works
- Framing of Dissertation and Thesis
- Scientific contribution
- **Appendix** : Publications - Realisations
- Mathematics and Computer Sciences
- Applied Mathematics to Engineering
- History of Mathematics
- History of Ideas, Methods of Analysis
- Book's Editor
- Books
- Exhibitions
- Museums,...)
- Theater plays
- Distinctions

**Studies** : School of Périgueux (The Dordogne), Sidi Aïch Junior High School, High school of Bejaia, University of Constantine (1975 – 1979), State University of Azerbaijan (Bakou, 1979 – 1980) and State University of Kiev (Ukraine, 1980 – 1984). **Diplomas**: Algerian Baccalaureat (specialization : Mathematics) and French Baccalaureate C (specialization: Mathematics and Physical sciences) with Third Class Standing (1975), D.E.S. (Diploma of Higher Learning) in Mathematics, option Probabilities – Statistics (valedictorian 1979), Ph.D in Probabilities (1983 - equivalence of the D.Sc - Doctorate of State in Mathematical Sciences, 1984).

**Career** : Started to teach in 1978 at the University of Constantine. He has been working at the University of Bejaia since its opening in 1983 /1984. Djamil Aïssani is the first teacher of this establishment to have risen to the rank of **Professor** (March 1988), to the rank of **Research Director** (1993) and to the functions of **Dean-Senior** of the Faculty of Science and Engineering (with its creation in 1999 - ministerial decree n° 57 of the 6/20/99). He has also provided courses and supervised theses, dissertations and projects in a dozen other establishments in Algeria (U.S.T.H.B. Algiers, University of Annaba, University of Tizi Ouzou, I.N.H. Boumerdes, University of Setif, University of Blida, ENITA Bordj-el-Bahri, I.N.P.S. Ben Aknoun, Polytechnic National School El Harrach,...) and abroad [University of Rouen (1992-1993), University of Montpellier (1995), University to Business Technology Transfer (Washington D.C., University of Myriland, Virginia Tech, Georgia Tech - Atlanta,

2003), University of Burgundy (2005), University of Marne la Vallée (2007),...]. In 2009, he was elected Visiting Professor by the teachers – researchers of the E.H.E.S.S. Paris, with the rank of Director of Studies 1st class. In 2014, he is Professor of the Universities 1st Class with the CNAM Paris (Conservatoire National des Arts et Métiers - National Conservatory of Arts and Crafts).

**Organizational Tasks:** Named in 1991 by Djilali Liabes as Scientific Adviser at the Ministry of Universities (cf ministerial decree n° 714), he will be successively named at the C.N.E.P.R.U. (National Commission of Evaluation and Programming of Research) then at the C.N.E. (National Commission of Equivalence – 1993), at the Scientific Council of the University Academy of Algiers (cf ministerial decree n° 102 of the 7/22/96) and at the C.U.N. (National University Commission – 2001, cf ministerial decree n° 148). President of the Mathematics Subcommittee of the C.N.E.P.R.U during one decade (1995 – 2005, cf ministerial decree n° 25 of 12/20/94), he was President of the Exact Sciences Subcommittee of the Commission of Accreditation of the Post-Graduations (1998 - 2002). After the adoption of the law on research, he was named at the First Permanent Sectoral Committee for the Scientific Research and Technological Development (with its creation in 1999 – cf ministerial decree n° 685). Member of the Ad hoc Committee on Innovation of the Directorate-General – D.R.S.D.T (M.E.S.R.S. Algiers) at its creation in 2008. He also belonged to several committees of experts (recasting of the C.U.N. in 1996, development of National Programs of Research, Reorganization of the Post-Graduation, Jury of the *President of the Republic Prize for Science and Technology*,...). Member of the C.P.N. (National Teaching Committee) of Mathematics in 1988, he is, the same year, founding member of the A.M.A. (Algerian Society of Mathematics). He is, in addition, member of many learned societies [member of the Directory of the M.C.D.M. – based in Georgia, member of the A.M.S – American Mathematical Society, founding member of the Rapid Modeling Society [based in Neuchâtel], member of Gnedenko E-Forum of the I.G.O.R. (International Group One Reliability),...].

Within these frameworks, Djamil Aïssani was associated to operations of organization of science in Algeria and abroad (creation of structures and networks, orientation of research, synthesis of works, project evaluation, assessment works, launching of streams and options, creation of specialized magazines, organization of events, documentation, relations with the industrial, socio-economic and cultural sectors, conventions,...). The latter:

- Advisory Editor of the International Journal *QMSM (Queueing Models and Service Management)*, 2016.
- Guest Editor of the International Journal *IJCCBS (International Journal of Critical Computer-Based Systems)*, Inderscience Publisher, 20

**The LaMOS Research unit:** Founded in 1985, The, *LaMOS (Laboratory of Modeling and Optimization of Systems)* is one of the oldest structures of research in activity in Algeria. Including a hundred and twenty high level researchers today, it has just risen to the status of *UR* (Multidisciplinary Research Unit). *LaMOS* thus became in 2013 the first *UR* (Research Unit) of the Country in the fields of Mathematics – Computer Science and Technologie. It opened to the applications of mathematics:

- to Engineering Science, in 1988 (at the beginning of the economic crisis in Algeria). The work carried out in the socio-economic organizations and the industrial companies was presented in 2003 in several American universities (Washington D.C., University of

Myriland, Virginia Tech, Georgia Tech – Atlanta) within the framework of a University to Business Technology Transfer.

- To Humanities and Social Sciences (Bibliography and Methods of Analysis, History of Mathematics) in 1991 (at the beginning of the political and identity crisis in Algeria). In 2003, he was appointed by the Ministry of Culture to create a focus of research on the History of Sciences with the C.N.R.P.A.H. Algiers.

**LaMOS: a 32 years action.** This action allowed particularly:

- to take part in the creation of several departments, institutes and faculties (Mathematics, Exact Sciences, Economy, Computer Science, Sciences, Engineering Sciences,...) ;
- to label the Department of Operational Research of the University of Bejaia as a pole of excellence with nationwide recruitment capacity (2010);
- to take part in 2003 in the creation of the Doctoral School of ResyD Computer Science. LaMOS ensured the official coordination and the scientific responsibility since its creation until 2011);
- to develop in Algeria the field “*evaluation of performance and Service Quality*” (UER Mathematics – Computer Science, ENITA – 1986, Institute of Computer Science, University of Annaba – 1987, Institute of Computer Science, USTHB Algiers – 1988,...).
- to host the “Assises Nationales des Mathématiques” in Bejaia in September 2010;

**The GEHIMAB Learned Society:** Djamil Aissani is president of the Learned Society **GEHIMAB** [*Group of Studies on the History of Mathematics in Bejaia* - see *Historia Mathematica* 20 (1993), 204]. Founded in December 1991, **GEHIMAB** is today recognized a public-interest organization (cf. <http://www.gehimab.org>). It is mainly the scientific works carried out on the history of sciences (the Maghreb and the Mediterranean), on the methods of analysis (Anthropological History, intellectual and through books of the Maghreb) and its relationship with the artistic world (Theater, Iconography, Music) which made it known by the general public (cf <http://www.gehimab.org>). Its commitment for the preservation of the material and immaterial heritage of Algeria (at the time of the black decade), and particularly of Kabylie, was the object of scientific analyses. A doctorate, entitled: *The Group of Studies on the History of Mathematics in Bejaia (GEHIMAB): an independent association in search of the heritage of a city and its province in today's Algeria*, directed by Fanny Colonna, was presented in 2006 at the E.H.E.S.S. Paris (cf M.A. Hadibi, *Insaniyat* magazine). We would also quote the articles of anthropologists and high profile journalists (Judith Scheele, Atilio Gaudio, Tassadit Yacine, Ghania Mouffok, Chawki Amari,...). On July 10th, 2013, an article of the philosopher Fadela Hebbadj under the title « *History and Direction in the Maghreb* », made the front page of the Newspaper Médiapart (Paris).

**Cultural field:** Appointed by the Governor of Algiers member of the Committee of the Millenium of Algiers Beni Mezghena (1999), then by the Minister of Culture in the year 2000 at the Council of Orientation of the the Cultural Center (and in 2009 with the Artistic Council of the Regional Theater of Bejaia, then in 2010 at the Technical Committee of Coordination of the Library of Public Reading), he prepared in 2001 the dossier of creation of the Advisory Council of Culture of the Province of Bejaia (decree n° 424/2001 of April 14th, 2001). Member of the Ministry of Religious Affairs and Awqaf Scientific Council of the Directorate of Islamic Culture, he was appointed by the Minister (in 2009) with constituting the program of the National Conference “Amazighity and Islam” (June 2009). Member of various

technical commissions [of the Cultural Property (decree n° 22054/08), Historical Technique PDAU (decree n° 1668/08),...] and of various juries [Competition of architecture of the OPGI (decree n° 36 of the 1/24/2012 of the Minister of Habitat and Urban Planning,...),...], he had been appointed in 1999 as expert at the CPVHM (Standing Conference of the Historical Cities of the Mediterranean – based in Alghero - Sardinia). By decree of the Ministry of Agriculture and Rural Development of April 29th, 2014, he was appointed at the Scientific Council of the National Park of Gouraya. Elected president for a 03 years term, he serves at the Council of Orientation.

**Sport field:** Djamil Aïssani is Sport Educator 3rd degree of Hand Ball (the three diplomas – 1976, 1977 and 1978 - were obtained under the direction of the Romanian specialists of the CREPS of Constantine).

**Biographical Data Forms:** The biography of Djamil Aïssani is published in several reference books: *Mathematical Sciences: Who's Who* of the International Academic Forum 2000, *People of the 20th Century* of Cambridge 2000, *IFORS* 2000, *I.A.B, IBC*,...;

**Scientific works:** Author of 870 scientific works [250 international publications, 112 articles of Proceedings with ISBN, 310 communications with published acts, 35 works and monographs, 135 plenary Conferences and presentations at specialized seminars, 25 editions of Proceedings] (published in a dozen languages).

**Framings:** 260 framings of dissertations and theses are added (31 Doctorates of State and in Sciences, 48 Magisters from former system, 106 theses of engineering, 74 theses of Master 2)

### **Scientific contribution:**

Supervision of 20 projects and programs,... The latter concern:

#### *1. Mathematics and Computer Science:*

Probabilities – Statistics and Operational Research. Development of the method of the operators of the theory of stability for the analysis of uniform ergodicity and the strong stability of the unspecified Markov chains. A complete search cycle was carried out by his students to prove the applicability of this new method to the stochastic models of Operational Research (Markov Chains, Queues, Reliability, Inventory Control, Risks). Application of these methods to the Computer Systems and the Telecommunication Networks Performance Evaluation.

#### *2. Mathematics Applied to Engineering Science:*

- Proposal scientific methodology of evaluation of the reliability of the electrical networks, under specific conditions (absence of data,...).

- Proposal an approaches for the Evaluation of Performances and the Quality of Service of the Computer Systems and the Telecommunication Networks (Djamil Aïssani is Coordinator and Scientific Director of the Doctoral School in *ReSyD* Computer Science since its foundation in 2003 – reappointed for 2010/2011 - cf ministerial decree n° 225 of July 22nd, 2009).

- Application of mathematical methods for modeling and evaluation of performance of the various disciplines of engineering science (Mechanics in 1987, Chemical Engineering in 1988, Electrotechnology in 1989, Hydraulics in 1991, Electronics in 2007,...).

### 3. *Industrial Mathematics* :

Solving problems presented by various industrial companies (Algerian Oil Company **Sonatrach**, Company of Electricity **Sonelgaz**, National company of Industrial Vehicles **S.N.V.I.** Rouiba, National Company of Textile **Ecotex**, National Company Water **Edemia**, Bejaia Port Authority, **Naftec** Skikda, Air Force base of Boufarik – Ministry of National Defence, Food industry company **Cevital**, Fatty products **E.N.C.G.** Bejaia, **Eriad** Sidi Aïch, **Transbois**, **S.N.T.R.**, **Naftal** Bejaia, **Embag** Bordj Bou Arreridj, **Algérienne des Eaux** Sétif, **Algérie Télécoms**, Food industry company **Djurdjura – Danone**, **Amimeur Energy**, Food industry company **IFRI**, **Candia**, **MAC Soummam**, **COGB La Belle**, ...), National Company of Textile **ETIT** (ex :**Icotal** Béjaia), National Company **ENMTP** Constantine, ... and of the socio-economic organizations (**D.P.A.T.** Planning – Wilaya of Bejaia, **A.P.C - City** of Bejaia, Hospital of Bejaïa, **B.N.A.** Bank, Direction of National Education, Insurance company **S.A.A.**, Company of Electricity of Niger **Nigelec**, Joint Venture **B.M.T**, Social Security Fund **C.N.A.S.**, **B.A.D.R.** Bank, **CNEP** Bank, , Algerian Customs, **ANB** (*Nationale Agency of Barrages*) – Béni Haroun, Direction of the Wilaya Fields, Direction of Wilaya Transport, Public Work Management Wilaya,...) in particular within the framework of final dissertations and specific protocols.

### 4. *History of Mathematics* :

**Maghrebian Mathematics** of the time of Leonardo Fibonacci, Raymond Lulle, Ibn Khaldun, Ibn al-Banna, al-Qurashi,... - the latter having made their studies (or having stayed and worked) in Bougie (Bejaïa) during the Middle Ages. Analysis of the mathematical tradition of the Maghreb. The same applies for the 19th century: knowledge available in the local scholars (Ash Shellati, Lmuhub Ulahbib,...) and activities in Algeria of eminent Western mathematicians (François Arago, Eugène Dewulf, Albert Ribaucour, André-Louis Cholesky, Henri Broccard ...).

### 5. *Bibliography and Methods of analysis*:

Discovery of an *erudite library of manuscripts of the 19th century*. Reconstitution of an *old specialized institute of the 18th century*. On these bases: proposal for a mathematical method of analysis of the social facts. This approach was applied to carry out a total analysis of the scientific manuscripts of the Maghreb.

### 6. *Berber field and Material and Immaterial Heritage*:

- Scientific importance of the Berber language and use of the writing in Kabylie (discovery and analyses of Lybico-Berber steles and manuscripts of Berber language);
- Reconstitution of the soufie heritage of Kabylie (11th – 20th centuries)

### 7. *Social studies* :

Djamil Aïssani coordinated specific studies of reference, required by the civil authorities (Ministries, National Ombudsman, Wilaya, Municipalities, Universities,...) and

military (Direction of the Scientific Research of the *M.D.N.*, School of the Senior Officers of National Marine of Tamenfoust, *ENITA* in Bordj el Bahri,...), sociocultural and religious associations, international agencies,... He has lately been appointed in the Technical Commission of Historical Cores *PDAU* Inter-municipalities (decree n° 1668/08 of the 9/22/2008), in the Commission of Ranking of the Cultural Goods (stopped n° 2205), in the Commission of Wilaya of Rehabilitation of the Places of Worship, in the Technical Committee of Coordination of the Library of Public Reading (ministerial decree, 2010) and in 2014 in the Committee of validation of the *PATWB* (- Plane of Regional Planning of Wilaya de Bejaia - *DPAT*).

**APPENDIX: Publications and Realisations**  
(see <http://www.lamos.org> and <http://www.gehimab.org>)

For each one of the four fields (Mathematics and Computer Science, Mathematics applied to engineering science, History of Mathematics, Methods of Analysis) we separately present the articles of magazines and the articles of books.

- *Analyse des Systèmes d’Attente avec Rappels et Arrivées Négatives : Stabilité Forte, Approche des Martingales, Analyse de la Période d’activité*, Editions Universitaires Européennes, Sarrebruck (Germany), Juillet 2016.
- *Estimation non Paramétrique pour la Stabilité des Systèmes d’Attente*, Presses Académiques Francophones Ed., Août 2016, 144 pages. ISBN : 978-3-8416-4149-6.

## VII – Exhibitions

Curator of twenty specialized. Among which :

- “The *Intellectual Relationships between Bejaia and Pisa*” (Leonardo Fibonacci, Raymond eLulle,...), Exhibition, Regional Theater of Bejaia, December 1993 (in collaboration with the Italian Cultural Institute);
- “*Bejaïa (Bugia) and the Abaci Liber*”, Exhibition on the occasion of the world *celebration of the 800th anniversary of the publication of the Liber Abaci* (principal work of the Italian mathematician Léonardo Fibonacci), 1st of November Plaza, Bejaia, June 2002-January 2003;
- *Bejaia, Knowledge Transmitting Center*, C.N.R.P.A.H. Algiers, March 2007. Presented at the Cultural Center of Kouba Algiers (March-April), then in Bejaia (Bordj Moussa Museum, May 2007-October 2008).
- *Qal’at n’Ath Abbas: an Independent Sultanate in the Bibans in the 16th Century*, Exhibition on the occasion of the 500th anniversary of the foundation. C.N.R.P.A.H. Algiers ED., May 2010. Presented in Bejaia (May), Algiers (El Mouggar Auditorium, October 2010) and in Biskra (Cultural Center, December 2010, within the framework of the International symposium on the Amazigh Kingdoms of the Muslim era, H.C.A. ED.).

- Exhibition, “*Manuscripts of Astronomy of the Maghreb*”, Exhibition within the framework of the International symposium on the History of Sciences, U.S.T.H.B. Bab Ezzouar, Algiers, June 2011.
- *The Bejaia – Tlemcen Intellectual Exchanges*, Ministry of Culture ED., Cultural Center of Tlemcen, October-September 2011 (see Jawhara Magazine n° 1.2011).
- *Scientific Manuscripts of the Maghreb*, Ministry of Culture ED., National Center of Research on the Andalusian Studies, Tlemcen, June 2012.
- *The Intellectual Exchanges Bejaia – Tlemcen*, Ministry of Culture ED., Bordj Moussa Museum, Bejaia, May 2012.
- *The Golden Age of Sciences in the Land of Islam*, Ministry of Culture ED., National Center of Research on the Andalusian Studies, Tlemcen, June 2012.
- *Ludwig Salvatore von Habsburg – Toskana in Bougie: Engravings and Testimonies*, International exhibition produced within the framework of the project Nixe III (Palma de Majorque, Vienna, Prague, Bejaia), T.R.B., November 2012 (see on the website: <http://www.nixe3.com>).

### VIII – Museums

Gehimab Association, in collaboration with various institutions founded the following museums:

- *Museum of the Math-Forum part* of the Web server (<http://www.Gauthier-villars.fr>) of the Publisher Gauthier-Villars (Paris-France), in 1996;
- *Afniq Ccix Lmuhub* (erudite Library of manuscripts of Cheikh Lmuhub), Tala Uzrar, Municipality of Aïn el Gradj (Wilaya de Sétif). In collaboration with the Ulahbib family, the Municipality of Aïn el Gradj (funds of the Canadian Government), 2002.
- *Reference Library on the Local History* (in collaboration with the Sub-prefecture of Béni Ourtilane and the Municipality of Aïn al-Gradj – Wilaya of Sétif), within the framework of a financing of Wilaya of Sétif, 2000).
- *Iconographie ancienne de Béjaia (Peinture, estampes, tableaux,...) : Identification et localisation, 2001.*
- *Galerie de Peinture et des Arts Graphiques Emile Aubry Béjaia* (Reconstitution et Réhabilitation dans le cadre d’une convention avec l’Agence Algérienne d’Archéologie – Ministère de la Culture – Alger, 2000).
- *Mediterranean Southern center of Local Know How* (within the framework of CPVHM, 2003)
- *Museum of Geology*, Sidi Ouali (Bejaia). In collaboration with Prof. Yves Bodeur and the National park of Gouraya, 2009.

- *Museum of Water*, L'Had Ouakli, Toudja. In collaboration with the Municipality of Toudja, the Hydraulic Authorities,... and within the framework of a European financing NGO II and the Province Council of Bejaia.
- *Road of Water*, Path of the Mills and Festival of Water (within the framework of a project NGO II of the European Union), 2010.
- *Museum of Ath Waghlis* in 2012 (cf. <http://www.ath-waghlis.com>)
- *National Research Center on the Andalusian Studies* - Tlemcen in 2012.

## IX – Theater Plays

The Regional Theater of Bejaia, in collaboration with 'Association Gehimab produced the following shows:

- “*Léonardo Fibonacci in Bugia*”, Director: Lucca Radaëlli (Milan). The premiere took place in June 2007 at the T.N.A. Algiers within the framework of the event “*Algiers, capital of the Arab Culture 2007*”. This show was presented in several International specialized Conferences: 1st International Seminar on the History of Sciences (USTHB Algiers, October 2008), International symposium on “the Catalan philosopher Raymond Lulle and the Scientists of Bejaia” (Bejaia, November 2007), International symposium “Islam and Rational Sciences” (Aurassi Hotel - T.N.A April 2009),...
- “*Mashdaly Zwawi fi Tilimsan*”, Director: Omar Fetmouche (Bejaia). The premiere took place on September 29th, 2011 at the Cultural Center of Tlemcen within the framework of the event “Tlemcen, capital of the Islamic Culture 2011”. This show was presented at the University of Tizi Ouzou (Operational Research Symposium) in November 2011 and programmed in Algiers in March 2012 for the 38th anniversary of the USTHB. The show was invited by Wilaya of Bouira for the celebration of the fiftieth anniversary of the independence of Algeria (July 4th at Mehdellah and July 5th at the Cultural Center of Bouira).
- « *al-Rihla al-Feggouniyya* ». Metteur en scène Omar Fetmouche (Théâtre Régional Béjaia). Texte : Djamil Aïssani, Omar Fetmouche,... (dans le cadre de la manifestation : Constantine, capitale de la culture 2015) ; <http://gehimab.org/>

## X – Distinctions (of the LAMOS and GEHIMAB)

- Medal of the University of Pisa in 1994 (works on the reports of the Italian Mathematician Léonardo Fibonacci with the City of Bejaia);
- Medal of the town of Lisbon in 1997 (works on the reports of former Portuguese President Manuel Texeira Gomès with the City of Bejaia);
- **Mouloud Mammeri** Award of recognition 1997 (for the discovery, the restoration and valorization [development of the catalogue, production of an exhibition,...] of the Khizana (erudite library) of manuscripts of Lmuhub Ulahbib;
- Distinction of the United States Department of Commerce (Washington D.C.), for the animation of University to Business Technology Transfer Consultative Tour (Washington D.C., University of Myriland, Virginia Tech, Atlanta), October 2003.

- Honorary Award of the ANDRU 2008 (Gehimab) for the structuring portfolio of the international celebration of the 700th anniversary of the *Raymond Lulle* « disputes » - Ulemas of Bejaia (Algiers – Barcelona – Palma de Mallorca – Frankfurt – Palermo – Bejaia – Perpignan).
- Medal of the City of Portimao in 2010 (contribution to the celebration of the 150th anniversary of the birth of former Portuguese President Manuel Texeira Gomès);
- Award of the Best poster/publication at the International Workshop of Astrophysics, University of Constantine, 2010 (see the publication of the AIP – American Institute of Physics – ISBN: 978-0-7354-0852-4.).
- Medal - Distinction of the exhibition « *Tlemcen, capital of the Islamic culture 2011* », for the production (as curator) of the Giant Exhibition « *Intellectual exchanges Bejaia – Tlemcen* ». ;
- « Manuel Texeira Gomès » Medal, awarded by the Municipality of Portimao (Portugal), October 2012.
- Distinction of the authorities and the Friends of Arxiduc” (Palma de Mallorca) for the contribution to the project Nixe III, November 2012.
- Distinction of the Regional Theater of Bejaia for the contribution to the production of the shows « *Leonardo Fibonacci in Bugia* » and « *Mashdaly Zwawi fi Tilimsan* », December 2012.
- Distinction of the Ministry of the Culture for the contribution to the *Months of the Heritage*, May 2014.
